Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 08 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Unsettled weather from mid-week with heavy rain and damaging winds.

Today:
A mild but cloudy day, with outbreaks of rain, especially in the west where there will be some heavier bursts over the hills. Some brighter interludes in the east through the afternoon, with rain becoming more sporadic. Maximum temperature 9 deg C (48 deg F).

Tonight:
Mostly cloudy with perhaps the odd clear spell in the southeast. Further periods of mainly light rain, especially over the hills. Minimum temperature 2 deg C (36 deg F).

Tuesday:
Mainly dry further east on Tuesday, with brighter spells. Turning breezy over western hills will rain and drizzle at times. Heavy rain overnight into Wednesday. Maximum temperature 11 deg C (52 deg F).

Outlook for Wednesday to Friday:
Turning very unsettled through the period with heavy blustery showers, wintry over the hills, or longer spells of rain. Strong to gale strength winds with severe gales possible over hills.
